The licensee agrees to the conditions of use specified herein. After signing this agreement, (s)he will be provided with a personal password allowing to download the speech data and necessary labelling files. The licensee is allowed to use these data exclusively for taking part in the 2010 Interspeech Paralinguistic Challenge. Papers submitted to the Interspeech 2010 Special Session *Paralinguistic Challenge* that make use of this corpus further need to cite any of:

B. Schuller, S. Steidl, A. Batliner, F. Burkhardt, L. Devillers, C. Müller, S. Narayanan: "The Interspeech 2010 Paralinguistic Challenge", Interspeech (2010), ISCA, Makuhari, Japan, 2010

B. Schuller, R. Müller, F. Eyben, J. Gast, B. Hömler, M. Wöllmer, G. Rigoll, A. Höthker, H. Konosu: "Being Bored? Recognising Natural Interest by Extensive Audiovisual Integration for Real-Life Application", Image and Vision Computing Journal, Special Issue on "Visual and Multimodal Analysis of Human Spontaneous Behavior", Elsevier, Vol. 27, Issue 12, pp. 1760-1774, November 2009.

The corpus is described in more detail in several publications which can be downloaded from:
<http://www.mmk.ei.tum.de/publ/mmk.html>

The corpus is handed over without guarantee. No legal claims of any kind can be derived from accepting and using the corpus. TUM is not liable for any damage resulting from receiving, installing or using the corpus or any other files provided by TUM in this context. Handing over the corpus or any other files which have been provided by TUM containing information derived from it (labelling files, etc.) by the licensee to any third party may not be done without the expressed written consent of TUM. Any models, derived from data containing the corpus may - just as the speech data themselves - only be used for scientific, non-commercial applications. This licence expires after the paper submission deadline for Interspeech 2010. If the licensee wants to use the data/labelling files after this date, another agreement of use has to be (and can be) made between TUM and the licensee.

I have read and understood this user agreement and will comply with it.
