**Agreement: Using the
SPEAKER PERSONALITY CORPUS (SPC)
for taking part in the INTERSPEECH 2012 Speaker Trait Challenge
between**

Department of Computing Science
University of Glasgow
Glasgow G12 8QQ, Scotland, henceforth UoG

and

Name (must be permanent staff member):

Institution:

Address:

email: *
phone:

The licensee agrees to the conditions of use specified herein. After signing this agreement, (s)he will be provided with a personal password allowing to download the speech data and necessary labelling files. The licensee is allowed to use these data exclusively for taking part in the INTERSPEECH 2012 Speaker Trait Challenge. Papers submitted to the INTERSPEECH 2012 Special Event *Speaker Trait Challenge* that make use of this corpus further need to cite:

B. Schuller, S. Steidl, A. Batliner, E. Nöth, A. Vinciarelli, F. Burkhardt, R. van Son, F. Weninger, F. Eyben, T. Bocklet, G. Mohammadi, B. Weiss: "The Interspeech 2012 Speaker Trait Challenge", Proc. Interspeech 2012, ISCA, Portland, OR, USA, 2012.

The corpus is described in more detail in several publications which can be downloaded from:
http://www.dcs.gla.ac.uk/~vincia/

The corpus is handed over without guarantee. No legal claims of any kind can be derived from accepting and using the corpus. UoG is not liable for any damage resulting from receiving, installing or using the corpus or any other files provided by UoG in this context. Handing over the corpus or any other files which have been provided by UoG containing information derived from it (labelling files, etc.) by the licensee to any third party may not be done without the expressed written consent of UoG. Any models, derived from data containing the corpus may - just as the speech data themselves - only be used for scientific, non-commercial applications. This licence expires after the camera ready paper submission deadline for INTERSPEECH 2012. If the licensee wants to use the data/labelling files after this date, another agreement of use has to be (and can be) made between UoG and the licensee.

I have read and understood this user agreement and will comply with it.

The corpus is described in more detail in several publications which can be downloaded from:
http://www.fon.hum.uva.nl/rob/nccrt/

The corpus is handed over without guarantee. No legal claims of any kind can be derived from accepting and using the corpus. NCI is not liable for any damage resulting from receiving, installing or using the corpus or any other files provided by NCI in this context. Handing over the corpus or any other files which have been provided by NCI containing information derived from it (labelling files, etc.) by the licensee to any third party may not be done without the expressed written consent of NCI. Any models, derived from data containing the corpus may - just as the speech data themselves - only be used for scientific, non-commercial applications. This licence expires after the camera ready paper submission deadline for INTERSPEECH 2012. The files must be deleted after the Challenge. If the licensee wants to use the data/labelling files after this date, another agreement of use has to be (and can be) made between NCI and the licensee.

I have read and understood this user agreement and will comply with it.
