phone:

The licensee agrees to the conditions of use specified herein. After signing this agreement, (s)he will be provided with a personal password allowing to download the speech data and necessary labelling files. The licensee is allowed to use these data exclusively for taking part in the INTERSPEECH 2013 Computational Paralinguistics Challenge. Papers submitted to the INTERSPEECH 2013 Special Event *Computational Paralingustics Challenge* that make use of this corpus further need to cite, both:

B. Schuller, S. Steidl, A. Batliner, A. Vinciarelli, K. Scherer, F. Ringeval, M. Chetouani, F. Weninger, F. Eyben, E. Marchi, H. Salamin, A. Polychroniou, F. Valente, S. Kim: "The Interspeech 2013 Computational Paralinguistics Challenge: Social Signals, Conflict, Emotion, Autism", Proc. Interspeech 2013, ISCA, Lyon, France, 2013.

S. Kim, M. Filippone, F. Valente, A. Vinciarelli: "Predicting the Conflict Level in Television Political Debates: an Approach Based on Crowdsourcing, Nonverbal Communication and Gaussian Processes", in Proc. ACM International Conference on Multimedia, Nara, Japan, pp.793-796, 2012.

The corpus is described in more detail in several publications which can be downloaded from:
http://www.dcs.gla.ac.uk/~vincia/
The corpus is handed over without guarantee. No legal claims of any kind can be derived from accepting and using the corpus. UoG is not liable for any damage resulting from receiving, installing or using the corpus or any other files provided by UoG in this context. Handing over the corpus or any other files which have been provided by UoG containing information derived from it (labelling files, etc.) by the licensee to any third party may not be done without the expressed written consent of UoG. Any models, derived from data containing the corpus may - just as the speech data themselves - only be used for scientific, non-commercial applications. This licence expires after the camera ready paper submission deadline for INTERSPEECH 2013. If the licensee wants to use the data/labelling files after this date, another agreement of use has to be (and can be) made between UoG and the licensee.

I have read and understood this user agreement and will comply with it.
