phone:

The licensee agrees to the conditions of use specified herein. After signing this agreement, (s)he will be provided with a personal password allowing to download the speech data and necessary labelling files. The licensee is allowed to use these data exclusively for taking part in the INTERSPEECH 2015 Computational Paralinguistics Challenge. Papers submitted to the INTERSPEECH 2015 Special Session *Computational Paralinguistics Challenge* that make use of these corpora further need to cite both

[1] B. Schuller, S. Steidl, A. Batliner, S. Hantke, F. Höning, J.R. Orozco-Arroyave, E. Nöth, Y. Zhang, F. Weninger: "The INTERSPEECH 2015 Computational Paralinguistics Challenge: Nativeness, Parkinson's and Eating Condition. Proceedings of INTERSPEECH 2015, Dresden, 2015, 5 pages, to appear.

[2] F. Höning, A. Batliner, E. Nöth: "Automatic Assessment of Non-Native Prosody Annotation, Modelling and Evaluation." Proceedings of the International Symposium on Automatic Detection of Errors in Pronunciation Training (ISADEPT), pages 21–30, Stockholm. 2012.

The corpora are handed over without guarantee. No legal claims of any kind can be derived from accepting and using the corpora. The rights belong to FAU, *digital publishing (dp)*, and, for 160 audio files, to ELRA. (The licensee shall give appropriate references to ELRA, as well as to the name and reference of the Language Resources in scholarly literature when the Language Resources are mentioned. The following acknowledgement is required: "ELRA catalogue (<http://catalog.elra.info>), ISLE Speech Corpus, catalogue reference: ELRA-S0083".) FAU is not liable for any damage resulting from receiving, installing or using the corpora or any other files provided by FAU in this context. Handing over the corpora or any other files which have been provided by FAU containing information derived from them (labelling files, etc.) by the licensee to any third party may not be done without the expressed written consent of FAU. Any models derived from data containing the corpora may - just as the speech data themselves - only be used for scientific, non-commercial applications. This licence expires after the camera ready paper submission deadline for INTERSPEECH 2015. If the licensee wants to use the data/labelling files after this date, another agreement of use has to be made between FAU/dp/ELRA and the licensee.

I have read and understood this user agreement and will comply with it.
