The corpus is handed over without guarantee. No legal claims of any kind can be derived from accepting and using the corpus. The rights belong to HomeBank (<http://homebank.talkbank.org>). Please contact Anne Warlaumont at 4homebank@gmail.com for further queries, questions, or concerns.

HomeBank is not liable for any damage resulting from receiving, installing or using the corpus or any other files provided by HomeBank in this context. Handing over the corpus or any other files which have been provided by HomeBank containing information derived from it (labelling files, etc.) by the licensee to any third party may not be done without the **expressed written consent** of HomeBank. Any models, derived from data containing the corpus may – just as the speech data themselves – only be used for scientific, non-commercial applications. This licence expires after the camera-ready paper submission deadline for INTERSPEECH 2017; users are obligated to delete the speech data from their computers and servers after submission unless they get explicit written permission from HomeBank to retain it. If the licensee wants to use the data/labelling files after this date, another agreement of use has to be made between HomeBank and the licensee.

I have read and understood this user agreement and will comply with it.
